## PROJECTS

### Portfolio Website

**Technologies used : HTML, CSS, JavaScript**

- This portfolio website showcases my work, skills, and professional experience in a clean and responsive design. Built using HTML, CSS, and JavaScript, it is designed to provide a seamless user experience across all devices, from desktop to mobile.
- This project serves as a simple yet effective way to learn and practice basic web development skills, focusing on DOM manipulation and event handling in JavaScript, alongside HTML structure and CSS styling.

### Calculator Website

**Technologies used : HTML, CSS, JavaScript**

- This project is a basic calculator web application designed to perform essential arithmetic functions. It is developed using HTML for structure, CSS for styling, and JavaScript for functionality.
